

PAD - 3/62
5 January 1962

MEMORANDUM FOR: Executive Director, NPIC

FROM: Chief, CIA/PAD (NPIC)

25X1A SUBJECT: Meeting with [] EXO/FE/DDP

25X1A 1. On 3 January 1962 [] met with Mr. [] EXO/FE/DDP, concerning our continuing support to his office and the relationship of [] who was recently attached to the [] and FE/DDP headquarters.

25X1A 2. The role of [] was, as yet, undetermined as the assignment was primarily the action of the field station. [] did not feel that the assignment of [] would fulfill the need for photo interpretation support in the field. [] had made inquiries in November 1961 as to the feasibility of sending a photo-interpreter from this office to []. Such an assignment is still under consideration by FE/DDP but plans are uncertain at the present time.

25X1A 3. [] suggested that a survey trip by several members of PAD to the Far East would be of utmost value to this office as well as a service to FE. Such a trip would be keyed to the DDP station in order to determine the extent of their utilization of photography and their requirements for photo interpretation support. A second objective would be to become knowledgeable with the photo reconnaissance effort in the Far East area. Thirdly, contact with the consumer would provide for better mutual understanding and hopefully result in more refined requirements from FE and better products from PAD.
